

Description du produit

TÜV certified (ratchet) lashing strap in one piece with automatic winding and unwinding mechanism. Versatile in use and easier to handle than other lashings. With this compact Quickloader you save a significant amount of your time for loading and unloading compared to conventional lashings. The tension strap has a longer lever for lighter and easier ratcheting. The release, which has been moved back, makes it impossible to pinch fingers or scrape knuckles and it is easy to operate even with thick work gloves. Equipped with coated J-hooks and D-rings.

- With ratchet and automatic retractor.
- Brand Quickloader.
- Type QL1200MD.
- Maximum allowable load (LC): 600 kg.
- Breaking point (BF): 1200 kg.
- Total length: 450 cm.
- Width 25 mm.
- Complies with all European directives: EN standard (EN1295-2) / TÜV / GS certificates.

Spécifications

Classification d'article: Nouveau
